- >> **Focus on Revenue:** As a complete end-to-end solution, **AvaTax for Cyrious Control** does it all—from rate research and maintenance to reporting and returns—no time is wasted on compliance.
- >> **Simplify:** Automating your sales and use tax compliance function removes complexity. With **AvaTax for Cyrious Control** never maintain a rate table or download monthly rate changes again.

Additional Services

In addition to the features included, with your **AvaTax for Cyrious Control** subscription, Avalara offers optional add-on features to further assist you with your sales tax compliance.

>> **AvaFile**>>

This web-based, sales and use tax return system allows tax departments to view, modify, and approve data for submission of returns to any tax jurisdiction in North America. Avalara not only takes care of the forms you need for each jurisdiction in which you have nexus, but also remits the liability on your behalf. Whether the tax region in which you owe accepts traditional or electronic filing, be certain an accurate return will be filed for you in the correct format and at the correct time.

- >> **Certified SST Service Provider (CSP):** Avalara- is one of only three certified service providers. As an incentive to participate, businesses that register to collect sales tax under SST rules and adopt Avalara's automated sales tax calculation service will receive increased defense from audit, protection from liability for mistakes in calculation, and may qualify for amnesty.
